EDUCATION

Charotar University of Science and Technology

June 2023–May 2027

Bachelor of Technology in Computer Engineering (GPA: 7.75 / 10.00)

- **Relevant Coursework:** Database Management, Operating Systems, Computer Networks, Software Engineering, Competitive Programming

TECHNICAL SKILLS

Programming Languages: C, C++, Java, JavaScript, python

Frontend Development: React.js, TailwindCSS

Backend Development: Node.js, Express.js, RESTful APIs, JWT Authentication

Database Management: MongoDB, MySQL

Developer Tools / Platforms: Git, GitHub, Postman, Vercel Deployment

Core Competencies: Data Structures and Algorithms, Object-Oriented Programming

INTERNSHIP

Naxians Technology

May 12, 2025 – June 10, 2025

Backend Development Intern

- Developed and tested RESTful APIs using Node.js and Express.js to support backend functionality for web applications.
- Collaborated with the development team to build and enhance React.js based features, improving user interface responsiveness and usability.
- Integrated MongoDB database using Mongoose for efficient data storage, retrieval, and management.

PROJECTS

JobDekho Portal | React.js, Tailwind CSS, Node.js, Express.js, MongoDB

- Developed a job portal platform where job seekers can search and apply for jobs based on their skills and requirements.
- Implemented recruiter authentication and dashboard allowing companies to post job openings and manage applications.
- Built RESTful APIs using Node.js and Express.js and integrated MongoDB for efficient job and user data management.

MedCheckMate | React.js, Tailwind CSS, Node.js, Express.js, MongoDB, XGBoost

- Developed a medicine information platform that allows users to search medicines and view descriptions and details.
- Displayed medicine storage conditions by categorizing them into normal temperature storage or cold storage.
- Integrated an XGBoost-based machine learning model to assist in analyzing medicine-related data and improving information insights.

Achievements

- **NPTEL:** Introduction to Programming in C
Data Structures and Algorithms using Java
- **Coursera:** C for Everyone
Advanced Web Development with JavaScript and React
Introduction to Back-End Development
Developing Back-End Apps with Node.js and Express.js
- Selected for **HackOut Hackathon (DAIICT), 2025.**
- Solved **300+ problems across coding platforms.**
